   Take the ribbon from your hair,          Shake it loose and let it fall,
Em                        A    A7                        D
   Laying soft against your skin,     Like a shadow on the wall.

   D                       D(½)  Dsus4(½)  D                       G
      Come and lay down by my side,          till the early morning light,
   Em                     A    A7                       D(½)      A(½)
      All I'm askin' is your time,     help me make it through the night.

      D(½)      D7(½)              G      G                   D
         I don't care what's right or wrong,     I won't try to understand,
      D7                    E      E7                    A(½)      A7(½)
         Let the devil take tomorrow,     'cause tonight I need a friend.

D                          D(½)  Dsus4(½)  D                       G
   Yesterday is dead and gone,             and tomorrow's out of sight,
Em                        A    A7                        D
   And it's sad to be alone,     help me make it through the night.

      Em                   A    A7                       D
         I don't want to be alone,     help me make it though the night.
