Whoa.....

F F F F F  
It's a good night for singing, I got too drunk and my ears are still ringing. It's

C C F F  
so good to be here, it's a brand new day. We've been

F F C Cdim9  
singing weary midnight tunes, we started at noon, it's a slip of the moon and we

Gm7 C F F  
still got time, it's a brand new day. I wonder

F F F F  
where are all the pleasant souls tonight? Indecision made them stay home and wait for daylight.

C C F F  
Spherical witness, help me in my flight.

Singing hours on into the night, over and over 'til we saw the light. The

nighttime seesaw, the lovelight we saw love at the right time, love at the right time

F F F F  
It's a good night for singing, I got too drunk and my ears are still ringing. It's

C C F F  
so good to see you, it's a brand new day.

F F C Cdim9  
It took us lifetimes to get this far, back to reality wonder where we are to-

Gm7 C F F  
night, it's a brand new day

F F F F  
It's a good night for singing, I got too drunk and my ears are still ringing.

F F F F  
It's a good night for singing, It's a good night for singing,.

F F F F  
It's a good night for singing, It's a good night for singing,.
