

# You'd Be Surprised by Irving Berlin (1919)

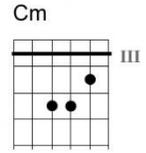

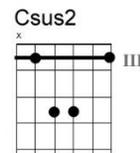

$G^{(\frac{1}{2})}$   $D7^{(\frac{1}{2})}$   $G$   $G^{(\frac{1}{2})}$   $D7^{(\frac{1}{2})}$   $G^{(\frac{1}{2})}$   $D7b5^{(\frac{1}{2})}$   
 Johnny was bashful and shy. Nobody understood why Mary  
 $D$   $D7$   $G^{(\frac{1}{2})}$   $A7^{(\frac{1}{2})}$   $D^{(\frac{1}{2})}$   $D7^{(\frac{1}{2})}$   
 loved him. All the other girls passed him by  
 $G^{(\frac{1}{2})}$   $D7^{(\frac{1}{2})}$   $G$   $G^{(\frac{1}{2})}$   $D7^{(\frac{1}{2})}$   $G^{(\frac{1}{2})}$   $Gm^{(\frac{1}{2})}$   
 Ev'ryone wanted to know how she could pick such a beau, with a  
 $D$   $D^{(\frac{3}{4})}$   $Ddim7^{(\frac{1}{4})}$   $A7$   $D^{(\frac{1}{4})}$   $Dma7^{(\frac{1}{4})}$   $D7^{(\frac{1}{4})}$   $G^{(\frac{1}{4})}$   
 twinkle in her eye, she made this reply. He's not so

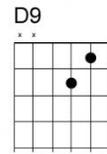

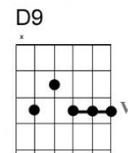

$G^{(\frac{1}{4})}$   $Cdim7^{(\frac{1}{4})}$   $G^{(\frac{1}{2})}$   $G^{(\frac{1}{4})}$   $Cdim7^{(\frac{1}{4})}$   $G^{(\frac{1}{4})}$   $Gdim7^{(\frac{1}{4})}$   
 good in a crowd, but when you get him a lone,  
 $D7^{(\frac{3}{4})}$   $Ddim7^{(\frac{1}{4})}$   $D7$   
 You'd be surprised. He isn't  
 $D7^{(\frac{1}{4})}$   $Ddim7^{(\frac{1}{4})}$   $D7^{(\frac{1}{2})}$   $D7^{(\frac{1}{4})}$   $Ddim7^{(\frac{1}{4})}$   $D7^{(\frac{1}{4})}$   $F\#7^{(\frac{1}{4})}$   
 much at a dance, but when he takes you home.  
 $G^{(\frac{3}{4})}$   $Cdim7^{(\frac{1}{4})}$   $G^{(\frac{1}{2})}$   $G7^{(\frac{1}{2})}$   
 You'd be surprised. He doesn't

$C$   $C+2^{(\frac{1}{2})}$   $Cm^{(\frac{1}{2})}$   $G^{(\frac{1}{2})}$   $B7^{(\frac{1}{2})}$   $E+^{(\frac{1}{2})}$   $E7^{(\frac{1}{2})}$   
 look like much of a lover, but don't judge a book by its cover;  
 $A$   $A7$   $D^{(\frac{1}{2})}$   $D7^{(\frac{1}{2})}$   $A7^{(\frac{1}{4})}$   $D9^{(\frac{1}{4})}$   $D7^{(\frac{1}{4})}$   $G^{(\frac{1}{4})}$   
 He's got the face of an angel but there's a devil in his eye. He's such a

delicate thing but when he starts to squeeze. You'd be surprised. He doesn't look very strong and but when you sit on his knee. You'd be surprised.

$C$   $C^{(\frac{1}{2})}$   $C+2^{(\frac{1}{4})}$   $Cm^{(\frac{1}{4})}$   $G^{(\frac{1}{2})}$   $B7^{(\frac{1}{2})}$   $E+^{(\frac{1}{2})}$   $E7^{(\frac{1}{2})}$   
 At a party or at a ball, I've got to admit he's nothing at all, but in a  
 $D$   $D9^{(\frac{1}{4})}$   $D7^{(\frac{1}{4})}$   $G^{(\frac{1}{4})}$   $D7^{(\frac{1}{4})}$   $Am7^{(\frac{1}{4})}$   $D7^{(\frac{1}{4})}$   $G^{(\frac{1}{4})}$   
 Morris chair, you'd be surprised.

Mary continued to praise Johnny's remarkable ways to the ladies. And you know advertising pays.  
 Now Johnny's never alone. He has the busiest phone. Almost ev'ry other day a new girl will say

He's not so good in the house, but on a bench in the park, you'd be surprised.  
 He isn't much in the light but when he gets in the dark, you'd be surprised.  
 I know he looks as slow as the Erie, you don't know the half of it, dearie.  
 He looks as cold as an Eskimo, but there's fire in his eyes.

He doesn't say very much, but when he starts in to speak, you'd be surprised.  
 He's not so good at the start, but at the end of the week, you'd be surprised.  
 On a streetcar or in a train, you'd think he was born without any brain,  
 but in a taxicab, you'd be surprised.
